

Educational Leadership Spanning Classroom and Clinic: Solving Problems, Creating Solutions

PROGRAM GOALS

The general purposes of this annual event are to provide academic and clinical education leaders the opportunity to:

- Discuss and act on issues important to the physical therapy education community and profession
- Conduct business relevant to the future of physical therapy education and to the development of academic leaders in the physical therapy profession
- Network with program administrators, faculty, and clinical educators from around the country
- Identify the current status of applicant pools and class size in PT/PTA education

The specific purposes of this year's meeting are to:

- Provide opportunities to develop leadership skills in clinical educators
- Develop clinical curricula for today's practitioner
- Discuss issues related to facilitating faculty work, including teaching, scholarship and service in the physical therapist educational environment;
- Discuss collaborative relationships between physical therapists and physical therapist assistants in the health care environment
