

**Educational Leadership Conference  
October 6-8, 2006**

**Integrating Vision 2020 Elements into Clinical Practice and Clinical Education - Worksheet**

Directions: Consider your primary work place and clinical education responsibilities. For the Vision 2020 elements, identify at least two strategies that could be used to integrate/advance each vision element in your clinical practice (or with academic faculty colleagues) and in clinical education. For each strategy listed, identify at least one barrier/resistance to integrating the strategy and identify the source(s) of the resistance (eg, organization, colleagues, learners, other health professionals, etc). All vision elements apply in all clinical settings. For those in academia, identify strategies to be used to advance these elements in clinical practice, clinical education, and with faculty colleagues.

<b>Vision 2020 Element</b>	<b>Strategies for Integrating/Advancing the Elements in Clinical Practice</b>	<b>Barriers/Resistances to Integrating/Advancing Strategies in Practice</b> [Code: Organization=O; Colleagues = C; Learners=L; Other Health Professionals = OHP]	<b>Strategy for Integrating/Advancing the Elements in <i>Clinical Education</i></b>	<b>Barriers/Resistances to Integrating Strategies in Clinical Education</b> [Code: Organization=O; Colleagues = C; Learners=L; Other Health Professionals = OHP]
<i>Autonomous Practice</i> (includes continued competence)	1.       2.	1.       2.	1.       2.	1.       2.
<i>Direct Access</i>	1.       2.	1.       2.	1.       2.	1.       2.
